Information pack:

btpilates introductory course starting August 9th 2017

Background

Thank you for your enquiry re: btpilates introductory starting Wednesday August 9th at 6pm & finishing 13th September. The sessions run from 6pm to 7pm at our studio on Salford Street (there's time after for questions too).

Btpilates origins and philosophy

Btpilates acknowledges the origins and evolution of Pilates from men's gymnastics (Duesseldorf, Germany) through hospital rehab (Isle of Man, UK), and maintenance of high level performance athletes (Hamburg and New York: ballet, circus and other sports such as baseball). Nowadays, with a little publicity from the Hollywood stars, Pilates has become a rehab and conditioning modality widely respected and used by physiotherapists and conditioning coaches the world over. Btpilates builds upon this legacy with a smooth and flowing workout that automatically corrects weak muscles and tight body parts and re-patterns movement for increased comfort and efficiency and freedom from injury. Learn the exercises and do them regularly, and you will be young into your 90's.

Assessments

This course includes a short assessment (30 minutes but allow a little longer). The assessment identifies weaknesses and personal goals. A simple homework plan follows (one to three exercises only). Email follow up confirms your progress and keeps you (and us!) to the mark.

Problems currently under physio or doctor supervision

If you have an ongoing problem we'll want to talk to your health provider. We are fully qualified to do this, having had a 22 year clinical background in veterinary medicine, and twelve years in therapeutic massage and exercise prescription for humans. The team approach is very effective for enhanced outcomes.

What to wear, what to bring

Comfortable clothing suitable for Pilates mat work and stretching. Pilates is performed with shoes off. Bottled water is provided likewise tea and coffee. Feel free to bring a water bottle if you wish. Mats are provided but again, bring your own if you wish.

Course content and price

Course includes 6 one hour sessions and one short strength and flexibility assessment. The cost is \$95 payable up front.

Bruce Thomson B.V.Sc. Bowen Therapist and Certified Pilates instructor
